AI operations and marketing systems professional working hands-on with generative AI since 2023. I lead AI adoption, connect core business systems, and build AI-assisted tools and automations that cut manual data work and turn scattered information into clear, measurable results.

EXPERTISE

- AI enablement & adoption
- Data & dashboards
- Workflow automation
- Web development & UX/UI
- Systems integration
- Digital marketing

PLATFORMS & TOOLS

AI & build	Operations	Marketing	Analytics	Event tech
Claude (Team, Code, Cowork)	Monday.com	Brevo	Google Analytics 4	vFairs
ChatGPT, Gemini	Google Workspace	HubSpot	Looker Studio	Bravura
Google Apps Script	Notion	Mailchimp	Supermetrics	Whova
HTML/CSS, JavaScript	Jotform	WordPress, Unbounce	Narrative BI	YourEvent
Next.js	Zapier	Google Ads, Adalysis		Bunny Stream
GitHub, Netlify	Pipedrive	Meta Ads		
	Salesforce (basic)	PR Newswire		

Campaigns Email drips · Lead nurture · A/B testing · SEO content · Re-engagement & event promotion

Industries Events & associations · Healthcare · Legal · Finance · Higher ed · Retail · Political

EXPERIENCE

Integrated Systems & Marketing Operations

Jan 2026 – Current

ARB Meetings & Events

AI ADOPTION & AUTOMATION

- Led company-wide adoption of Claude Team, unifying core systems, client files, and shared docs into one knowledge base for a 10-person team.
- Automated client digests from project systems and shared inboxes, and routed Zoom summaries into each client's Monday.com workspace.
- Administered Monday.com, standardizing client workspaces and integrating Brevo, Jotform, and Google Workspace.

TOOLS & SYSTEMS

- Developed an OCR receipt scanner, a speaker graphic generator used by about 100 speakers, and a pay-per-view video archive.
- Engineered a registration code system for 300–400 invitees: unique codes, personalized emails, redemption tracking, and reminders.
- Owned post-conference evaluations and reporting as a client product, condensing results into overviews and briefs tailored to steering committees, funders, and the internal team.
- Authored a 39-page outcomes report drawing on 9 data sources, and designed interactive dashboards in Claude and Looker Studio.
- Configured conference apps on vFairs, Bravura, and Whova; FIMCON's app reached 75.1% adoption, about 1.5x the industry benchmark.

MARKETING & COMMUNICATIONS

- Researched user personas and built the full-funnel content strategy and website for a chronic disease convention, plus email, LinkedIn, and web content for FIMCON 2026.
- Ran 30 Brevo campaigns at a 98.1% delivery rate and 39.8% click-to-open rate, over 2x the industry average; earned 559 media pickups, including AP News, from one press release.
- Produced social media toolkits for attendees, speakers, and sponsors, and directed photography for 3 of 4 on-site conferences.

Marketing Administrator & IT Administrator

Feb 2024 – Sep 2025

Comeaux Furniture, Appliance & Mattress

- Managed Google Ads ($2K–$15K/mo): 65% YoY conversion increase and 62% lower cost per conversion via PMax, pruning, and AI-informed copy.
- Built dashboards and automated reporting in Narrative BI and Google Sheets, cutting quarterly inventory QA from 24 hours to under one.
- Directed SEO, site optimization, and digital assets, and connected Myriad to the website inventory system.
- Maintained IT infrastructure, conducted market analysis, and negotiated sponsorships aligned with brand strategy.

Digital Manager & Analytics Coordinator

Oct 2022 – Jul 2023

Morgan & Co. · SEO, analytics & reporting lead

- As the agency's first and only SEO specialist, scoped and led every SEO project, defining what the work included and seeing it through.
- Adapted reporting and analytics as projects ran, using client feedback and pushback on contract terms to decide what to measure.
- Rebuilt client reporting in Looker Studio, saving 4–5 hours per report, and coached the team to raise its baseline SEO and analytics knowledge.
- Co-managed paid media for healthcare (LCMC), gaming, legal, and hospitality clients across Google Ads and Meta.
- Ran QA, KPI monitoring, and audience performance analysis, and produced branded video content with AI tools.

Sales & Marketing Coordinator

Dec 2021 – Oct 2022

Search Influence

- Set up automated lead nurture workflows in HubSpot and aligned email, paid media, and SEO across the funnel.
- Continued owning the company blog, and built proposals and sales materials from performance data in Looker Studio.

Director of Marketing & Brand Creative

May 2021 – Oct 2021

Cura OS

- Created marketing strategies structured around S.M.A.R.T. goals, with measurable targets for each channel.
- Directed a full brand identity and website rebuild, growing the site from one landing page to twelve SEO-optimized pages.
- Built buyer personas, sales funnels, and internal documentation, and led company-wide Pipedrive CRM adoption.
- Designed a persona-segmented Mailchimp drip campaign and created assets across email, social, and digital.

Account Manager & Coordinator

Nov 2019 – Jun 2021

Search Influence

- Ran multi-channel, funnel-stage strategy for regulated industries (finance, legal, medical, higher ed), coordinating messaging, targeting, and content.
- Drove a 49% increase in inquiries for Palo Alto University and a 77% ROI lift for a plastic surgery client.
- Owned 20 internal and external training topics, writing and updating the documentation as industry and company standards changed.
- Trained in Lean methodology; implemented Zapier workflows for lead handling, CRM integration, and campaign consistency.

Account Coordinator

Sep 2018 – Nov 2019

Search Influence

- Owned the company blog as Search Influence's own account coordinator: chose topics from analytics, trends, and sales priorities, assigned up to 6 posts a month company-wide, and ran editing, QA, and publishing.
- Set editorial criteria, gave hands-on draft feedback, and tracked which topics drove sales meetings against S.M.A.R.T. goals.
- Interviewed every New Orleans City Park department, turned the feedback into its website RFP, and rated the submissions.
- Coordinated the Vote Parks & Rec millage campaign, which passed: paid and Facebook ads, Unbounce landing pages, a Zapier yard-sign sign-up workflow, and reporting. Found and wrote its two winning award submissions.
